

# Digging Up Dinosaurs

Title: \_\_\_\_\_

Author: \_\_\_\_\_

Illustrator: \_\_\_\_\_

Publisher: \_\_\_\_\_

Select and read a nonfiction book about dinosaurs. Choose one dinosaur to highlight in your report.

- What is the correct spelling and pronunciation of this particular dinosaur?
- Describe the dinosaur, including its weight, size, color, etc. Draw a picture of the dinosaur to scale and include a scale drawing of man beside it to show the vast difference in size.
- Describe its natural habitat and use a world map to indicate the location of diggings where its remains have been found.
- What natural enemies and dangers did this dinosaur face during its lifetime and what means did it have to protect itself?
- What does the author give as the reason for this animal's demise and eventual extinction?
- Explore other resources (museums, encyclopedias, filmstrips, the Internet, etc.). Compile all of your information into an oral presentation. You may choose to prepare a mini-mural, a clay or wooden replica, or a diorama as visual aids in your report.
